Who we are

Powertherm Contract Services is a multi-discipline industrial service provider, offering a comprehensive range of industry-renowned solutions. We operate in diverse and demanding markets, bringing innovation and over 30 years of experience and technical expertise to a global clientele.

Do it right, do it once: that's the Powertherm way. Our collaborative approach allows us to provide a tailored, bespoke solution to meet your own unique requirements and challenges. We are committed to continuous improvement, investing in industry-acclaimed training and technology. Whatever size the project, our teams uphold the same safety, quality, and environmental commitments and service delivery excellence.

You can rely on Powertherm to provide the trust, peace of mind and quality of service that you need to achieve your targets.

Our Story

From our history in the coal-fired power stations of the UK, Powertherm has progressed to be at the forefront of greener and more sustainable solutions in our industry. Founded in Sheffield in 1989, we originally provided a range of thermal and acoustic industrial insulation services before expanding out into a range of other solutions.

Now into our fifth decade, we offer a diverse range of industry-leading capabilities to a global client base. Our original team of ten has grown rapidly to over 300 employees, stationed in multiple UK locations.

A lot has changed since our founding, from advances in technology to changes in legislation. However, the way we approach every project and client has remained the same. We pride ourselves on being personable and always offering the right solution for each client.

Our core values have allowed us to build a proven track record with clients around the globe:

- **Development** – we are committed to the continuous development and improvement of our business, people and services
- **People** – we know that our people are our most valuable asset
- **Teamwork** – we understand that greatness comes from unity and collaboration
- **Quality** – we have a commitment to quality at all levels of our business
- **Reputation** – through sustained excellence, we maintain our strong reputation

“We are fully committed to creating safe working environments and optimising operational performance for our clients and their people”

Paul Ashton | Managing Director

Capacity

- 300+ employees

Locations

Head Office:

Sheffield, Yorkshire

- 1,315m² Sheet Metal & Insulation Manufacturing Facility
- 2,785m² Warehouse Capacity & Logistics Facility

Regional Offices:

Ellesmere Port, Cheshire

- 1,300m² Blasting & Industrial Coatings Facility

Saltend, Humberside

Teesside, Middlesbrough

Powertherm has the capabilities to provide computer-aided system designs

Powertherm is the right size to provide a single point of contact for project management services, but still be easy to deal with.

Why choose Powertherm

Powertherm combines a personal touch with solutions at scale. Through a single point of contact, we can assist in individual areas of asset management or offer a full end-to-end service for a project's lifetime.

Uniquely sized: We have the capabilities and competencies to deliver major value contracts, while forging accessible, personal contacts with our clients for immediate support.

Extensive direct labour: Our extensive labour pool enables us to scale up our services when required, providing rapid solutions for time-critical incidents like outages.

In-house services: We offer a comprehensive range of in-house services designed to optimise processes and offer additional, cost-effective solutions to your business.

In-house support departments: We support the day-to-day running of a contract via our dedicated HR, QHSE, Purchasing and Commercial teams – proactively resolving potential issues before they become problems.

Capabilities:

- › Insulation, scaffolding, trace heating and refractory lining system designs
- › Material & coating specifications
- › Thermal & acoustic surveys & calculations
- › Static & wind load calculations
- › 2D / 3D CAD drawings
- › Technical drawing take-offs including 3D models
- › Material & fabrication supply
- › Workforce supply
- › CompEx Electrical Engineers
- › Site measuring, consultations, and inspections
- › CUI expertise and solutions
- › Winterisation surveys
- › End-to-end turnkey services: design, supply, install, maintain and decommission

Innovative solutions:

- › Flexible Insulation Products
- › Mascoat Insulation Coatings
- › Passive Fire Protection
- › Robotic Shotcreting
- › Rope Access
- › The DUK Rail System
- › The Space-Ring System (SRS)

What we do

Powertherm is a multi-discipline industrial service provider, combining a deep understanding of a wide range of industries with a holistic approach.

Across insulation, access, protective coatings and more, we offer a one-stop-shop approach that removes the need to manage multiple contractors. We constantly strive to reduce overheads to make our solutions more cost-effective for our clients, and offer continuous maintenance and upgrade services.

We have a proven track record of supporting major blue-chip clients to bring about positive change, through innovation and expertise, on challenging projects.

Our teams are regularly called upon in industry to rectify installations that are failing; applying their knowledge and experience of the challenges faced by clients' assets and facilities to provide the right solution.
